Data Security Is Your Business's Biggest Threat & The One That Is The Hardest To Manage

The threat landscape has evolved significantly. Cybersecurity is one of the most prevalent concerns facing all businesses today and proper measures and protection are vital to ensure that your business does not suffer. Unfortunately many small to mid-sized businesses can't afford to attract and retain the talent needed to ensure comprehensive oversight in these areas.

ThreatAdvice vCISO Reduces Your Security Burden

Rest easy with ThreatAdvice vCISO with the assurance that you have an overarching solution to oversee all of your data security needs. ThreatAdvice vCISO provides oversight into all of your cybersecurity needs. Details of what is included in ThreatAdvice vCISO are below. If this doesn't fit with your needs, talk to a sales representative about creating a customized package!

Proprietary vCISO Dashboard
Single pane of glass where you can find the current status of your company's cybersecurity and compliance program.

Q&A Ticketing with vCISO Team
Team of information security experts available 24/7.

Monthly Meeting with vCISO Professional
Review your comprehensive security posture with our information security expert.

Annual Security Risk Assessment
TA vCISO provides you with the tools to help track and complete your annual Security Risk Assessment: HIPAA, NIST, FFIEC

Board and C-Suite Reporting
All of your board and C-Suite cybersecurity reporting made simple.

ThreatAdvice vCISO Features Continued

ThreatAdvice Educate
Efficient and effective cybersecurity online training for your employees. By using the Cyber Risk Awareness Tools, management will be able to enhance its oversight and management of the enterprise's overall cybersecurity.

ThreatAdvice User Phishing
Evaluate employee cybersecurity knowledge with realistic, simulated phishing campaigns.

IT Security Policy Templates
Policies provided in a Word document for customization. Policies are kept up to date as regulatory requirements change.

Continuous Internal Vulnerability Scanning
We perform vulnerability scans to identify known security exposures before attackers find them.

Additional Add Ons That You Can Use To Customize Your vCISO Solution

- Annual Penetration Testing
- SIEM
- Advanced Endpoint Protection
- Next Generation Managed Firewall
- Anti-virus Gateway
- OS Patching & 3rd Party App Updates
- Multi-factor Authentication
- Mobile Device Management
- Antivirus Protection
- Anti Malware Protection
- Compliance Security Oversight:
  Federal Financial Institutions Examination Council (FFIEC), Automated Cybersecurity Examination Tool (ACET), Defense Federal Acquisition Regulation Supplement/Cybersecurity (DFARS/CMMC), Payment Card Industry (PCI), Personally Identifiable Information (PII)
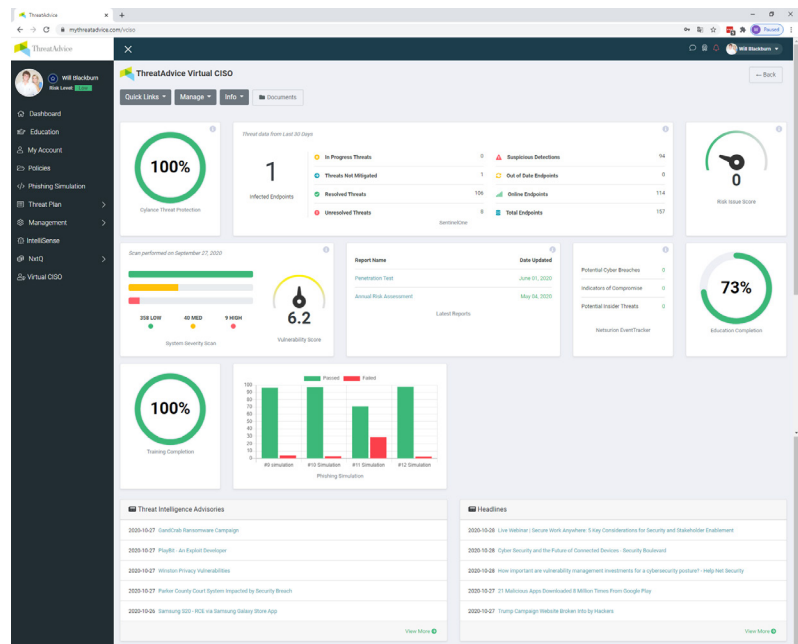

"As soon as I saw the definition [of vCISO] and what all was going to be provided, I was sold. If you have ever had concern about IT threats, or if you have ever had concern about your work flow and are you maximizing IT in your bank as far as making everyhting more efficient? If you have ever had those questions, I think vCISO is your answer.

-Mitt Schroeder, CEO Central State Bank
